Notes to Consolidated Financial Statements

1. BASIS OF PRESENTATION

References to “Brinker,” “the Company,” “we,” “us,” and “our” in this Form 10-Q are references to Brinker International, Inc. and its subsidiaries and any predecessor companies of Brinker International, Inc.

Our consolidated financial statements as of December 23, 2009 and June 24, 2009 and for the thirteen week and twenty-six week periods ended December 23, 2009 and December 24, 2008 have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (“SEC”). We are principally engaged in the ownership, operation, development, and franchising of the Chili’s Grill & Bar (“Chili’s”), On The Border Mexican Grill & Cantina (“On The Border”) and Maggiano’s Little Italy (“Maggiano’s”) restaurant brands. At December 23, 2009, we owned, operated, or franchised 1,712 restaurants in the United States and 28 countries and two territories outside of the United States. We sold Romano’s Macaroni Grill (“Macaroni Grill”) to Mac Acquisition LLC (“Mac Acquisition”), an affiliate of San Francisco-based Golden Gate Capital, in December 2008 and we currently hold an 18.2% ownership interest in the new entity.

The preparation of the consolidated financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and costs and expenses during the reporting period. Actual results could differ from those estimates.

The information furnished herein reflects all adjustments (consisting only of normal recurring accruals and adjustments) which are, in our opinion, necessary to fairly state the interim operating results for the respective periods. However, these operating results are not necessarily indicative of the results expected for the full fiscal year. Certain information and footnote disclosures normally included in annual financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been omitted pursuant to SEC rules and regulations. The notes to the consolidated financial statements (unaudited) should be read in conjunction with the notes to the consolidated financial statements contained in the June 24, 2009 Form 10-K. We believe the disclosures are sufficient for interim financial reporting purposes.

In connection with preparation of the consolidated financial statements, we evaluated subsequent events after December 23, 2009 through the date and time the financial statements were issued on February 1, 2010.

2. EARNINGS PER SHARE

Basic earnings per share is computed by dividing income available to common shareholders by the weighted average number of common shares outstanding for the reporting period. Diluted earnings per share reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock. For the calculation of diluted earnings per share, the basic weighted average number of shares is increased by the dilutive effect of stock options and restricted share awards determined using the treasury stock method. We had approximately 7.9 million stock options and restricted share awards outstanding at December 23, 2009 and 9.2 million stock options and restricted share awards outstanding at December 24, 2008 that were not included in the dilutive earnings per share calculation because the effect would have been anti-dilutive.

3. SELF-INSURANCE PROGRAM

During the second quarter, we dissolved our wholly-owned captive insurance company which allowed us to access \$29.7 million of cash that was previously pledged as collateral and classified as restricted. The dissolution resulted in the reclassification of certain deferred tax balances including approximately \$22.5 million classified as current taxes payable at December 23, 2009.

4. FAIR VALUE MEASUREMENTS

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. In determining fair value, the accounting standards establish a three level hierarchy for inputs used in measuring fair value, as follows:

- Level 1 – inputs are quoted prices in active markets for identical assets or liabilities.
- Level 2 – inputs are observable for the asset or liability, either directly or indirectly, including quoted prices in active markets for similar assets or liabilities.
- Level 3 – inputs are unobservable and reflect our own assumptions.

(a) Non-Financial Assets Measured on a Non-Recurring Basis

We review the carrying amount of long-lived assets semi-annually or when events or circumstances indicate that the carrying amount may not be recoverable. If the carrying amount is not recoverable, we record an impairment charge for the excess of the carrying amount over the fair value.

Included in other gains and charges in the consolidated statement of income for the second quarter of fiscal 2010 is a \$15.2 million charge related to the impairment of long-lived assets held for use associated with 15 underperforming restaurants that had a carrying value of \$20.7 million. We determined fair value based on projected discounted future operating cash flows of the restaurants over their remaining service life using a discount rate that is commensurate with the risk inherent in our current business model, which reflects our own judgment. Our non-financial assets measured at fair value on a non-recurring basis were as follows (in thousands):

	Fair Value Measurements Using			
	Level 1	Level 2	Level 3	Total
Long-lived assets held for use	\$ —	\$ —	\$5,541	\$5,541

(b) Other Financial Instruments

Our financial instruments consist of cash and cash equivalents, accounts receivable, accounts payable and long-term debt. The fair value of cash and cash equivalents, accounts receivable and accounts payable approximates their carrying amounts while the fair value of the 5.75% notes is based on quoted market prices. The carrying value and fair value of the 5.75% notes at December 23, 2009 was \$289.3 million and \$287.5 million, respectively.

5. OTHER GAINS AND CHARGES

Other gains and charges consist of the following (in thousands):

	<u>Thirteen Week Periods Ended</u>		<u>Twenty-Six Week Periods Ended</u>	
	<u>December 23, 2009</u>	<u>December 24, 2008</u>	<u>December 23, 2009</u>	<u>December 24, 2008</u>
Restaurant impairment charges	\$ 15,174	\$ —	\$ 15,174	\$ —

	<u>\$ 18,830</u>	<u>\$ 85,149</u>	<u>\$ 21,617</u>	<u>\$ 90,102</u>

In the second quarter of fiscal 2010, we recorded a \$15.2 million charge related to the impairment of long-lived assets held for use associated with 15 underperforming restaurants. The impairment charge was measured as the excess of the carrying amount of the long-lived assets over their fair value (see Note 4). Additionally, we recorded \$6.8 million in charges primarily related to long-lived asset impairments resulting from the decision to close 12 company-owned restaurants. The decision to close the restaurants was based on a comprehensive analysis that examined restaurants not performing at required levels of return. Additionally, we incurred \$1.2 million in severance and other benefits resulting from recent organizational changes. We also sold 21 restaurants to a franchisee for \$19.0 million and recorded a gain of \$2.8 million.

In the first quarter of fiscal 2010, we recorded \$2.0 million in lease termination charges related to restaurants closed in prior years and \$0.5 million in severance and other benefits resulting from organizational changes initiated in fiscal 2009.

In the second quarter of fiscal 2009, we recorded a \$45.7 million charge primarily related to long-lived asset impairments of \$44.2 million resulting from the decision to close 35 underperforming restaurants. In December 2008, we sold Macaroni Grill to Mac Acquisition and recorded a loss on the sale of \$43.3 million. We also recorded gains of \$3.6 million related to the sale of nine restaurants to a franchisee and land sales.

In the first quarter of fiscal 2009, we recorded \$2.0 million in lease termination charges, a \$1.7 million charge related to uninsured hurricane damage and a \$1.3 million charge for expenses associated with the sale of Macaroni Grill.

6. LONG-TERM DEBT

Long-term debt consists of the following (in thousands):

	December 23, 2009	June 24, 2009
Term loan	\$ 250,000	\$ 390,000
5.75% notes	289,329	289,253
Capital lease obligations	51,214	50,009
	590,543	729,262
Less current installments	(251,913)	(1,815)
	<u>\$ 338,630</u>	<u>\$ 727,447</u>

At December 23, 2009, \$250.0 million was outstanding on our three-year term loan agreement which expires in October 2010. The current interest rate on the term loan is LIBOR plus 0.95% (1.18%) based on our current credit rating. The entire outstanding balance has been classified as current in our consolidated balance sheet as of December 23, 2009. However, we are evaluating potential options including long-term refinancing and repayment of the outstanding balance. The long-term refinancing options we are considering include, but are not limited to, the utilization of our existing revolving credit facility. As of December 23, 2009, we have \$250.0 million available to us under our revolving credit facility, which expires in February 2012. The interest rate on the revolving credit facility is LIBOR plus 3.25%. We are in compliance with all financial debt covenants.

7. SHAREHOLDERS' EQUITY

The Board of Directors has authorized a total of \$2,060.0 million of share repurchases. As of December 23, 2009, approximately \$60 million was available under our share repurchase authorizations. We did not repurchase any common shares under our share repurchase plan during the first two quarters of fiscal 2010. Our stock repurchase plan has been and will be used to return capital to shareholders and to minimize the dilutive impact of stock options and other share-based awards. We may consider additional share repurchases under our plan based on several factors, including our cash position, share price, operational liquidity, and planned investment and financing needs. Repurchased common stock is reflected as a reduction of shareholders' equity. We paid dividends of \$11.3 million, or \$0.11 per share, to common stock shareholders in December 2009 and a total of \$23.2 million, or \$0.22 per share, to common stock shareholders year-to-date.

8. SUPPLEMENTAL CASH FLOW INFORMATION

Cash paid for income taxes and interest for the first two quarters of fiscal 2010 and 2009 are as follows (in thousands):

	<u>December 23, 2009</u>	<u>December 24, 2008</u>
Income taxes, net of refunds	\$ 3,240	\$ 19,306
Interest, net of amounts capitalized	12,278	15,370

Non-cash investing activities for the first two quarters of fiscal 2010 and 2009 are as follows (in thousands):

	<u>December 23, 2009</u>	<u>December 24, 2008</u>
Retirement of fully depreciated assets	\$ 35,884	\$ 43,951

9. CONTINGENCIES

As of December 23, 2009, we remain secondarily liable for lease payments totaling \$181.1 million resulting from the sale of restaurants to franchisees and brand divestitures. This amount represents the maximum potential liability of future payments under the guarantees. These leases have been assigned to the buyers and expire at the end of the respective lease terms, which range from fiscal 2010 through fiscal 2023. In the event of default, the indemnity and default clauses in our assignment agreements govern our ability to pursue and recover damages incurred. No material liabilities have been recorded as of December 23, 2009.

Certain current and former hourly restaurant employees filed a lawsuit against us in California Superior Court alleging violations of California labor laws with respect to meal and rest breaks. The lawsuit seeks penalties and attorney's fees and was certified as a class action in July 2006. On July 22, 2008, the California Court of Appeal decertified the class action on all claims with prejudice. On October 22, 2008, the California Supreme Court granted a writ to review the decision of the Court of Appeal. We intend to vigorously defend our position. It is not possible at this time to reasonably estimate the possible loss or range of loss, if any.

We are engaged in various other legal proceedings and have certain unresolved claims pending. The ultimate liability, if any, for the aggregate amounts claimed cannot be determined at this time. However, management, based upon consultation with legal counsel, is of the opinion that there are no matters pending or threatened which are expected to have a material adverse effect, individually or in the aggregate, on our consolidated financial condition or results of operations.

(a) At the end of the second quarter of fiscal 2010, international franchised restaurants by brand included 204 Chili's, ten On The Border's and one Maggiano's restaurant.

(b) As of December 24, 2008, we owned two Macaroni Grill restaurants which have been excluded from the total restaurants. The restaurants were subsequently closed in June 2009.

At December 23, 2009, we owned the land and buildings for 220 of the 1,001 company-owned restaurants. The net book values of the land and buildings associated with these restaurants totaled \$175.8 million and \$172.8 million, respectively.

GENERAL

The following Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A") is intended to help the reader understand Brinker International, our operations, and our current operating environment. For an understanding of the significant factors that influenced our performance during the quarters ended December 23, 2009 and December 24, 2008, the MD&A should be read in conjunction with the consolidated financial statements and related notes included in this quarterly report.

OVERVIEW

We are principally engaged in the ownership, operation, development, and franchising of the Chili's Grill & Bar ("Chili's"), On The Border Mexican Grill & Cantina ("On The Border") and Maggiano's Little Italy ("Maggiano's") restaurant brands. At December 23, 2009, we owned, operated, or franchised 1,712 restaurants. We sold Romano's Macaroni Grill ("Macaroni Grill") to Mac Acquisition LLC ("Mac Acquisition"), an affiliate of San Francisco-based Golden Gate Capital, in December 2008 and we currently hold an 18.2% ownership interest in the new entity.

We are committed to strategies and initiatives that are centered on long-term sales and profit growth, enhancing employee engagement and providing superior hospitality. Our strategies will allow us to enhance the long-term health of the company by differentiating our brands from the competition, reducing the costs associated with managing our restaurants and establishing a strong presence in key markets around the world. We will continue to take actions that will allow us to maintain a strong balance sheet and enhance our ability to provide results in all operating environments. We will monitor our results and the current business environment closely in order to pace the implementation of our initiatives appropriately and to ensure we maintain financial flexibility.

Our results for the second quarter of fiscal 2010 reflect positive progress toward our goal of driving profitable growth over the long term; however, current economic conditions remain difficult. We believe that economic factors will continue to negatively impact the casual dining industry and consumer spending. Traffic trends in the industry indicate that casual dining customers are limiting discretionary spending by reducing the frequency of their visits to our restaurants or scaling back on check totals. Despite these economic challenges we have experienced positive results from our initiatives, including recent improvement in guest counts. We will continually evaluate how we manage the business and make necessary changes in response to competition and the economic factors affecting the business.

We are stimulating sales growth through new or improved product offerings and promotions that provide an excellent value to our guests. We have recently completed a significant transformation of our menu at Chili's by introducing new items and enhancing the quality of existing items. Our recent promotions were successful in providing a positive impact to sales and providing a platform to introduce new menu items. We believe that our menu changes will result in sustainable sales and profit growth by increasing guest loyalty and traffic. We are achieving profit improvements through a disciplined approach to operations, including effective management of food costs, labor productivity and fixed costs. Our emphasis on the operations of our existing restaurants has resulted in lower turnover which has positively impacted labor cost, efficiency and service quality. We are exhibiting discipline in our capital allocation by virtually curtailing all domestic company-owned new restaurant development in fiscal 2010; however, we will continue to invest in our existing restaurants and develop new restaurants under our international joint venture arrangement. We have solidified our cash flows to provide the necessary flexibility to address current

[Table of Contents](#)

challenges and provide necessary short-term liquidity. We have utilized free cash flow resulting from our financial discipline to reduce our debt levels and to provide flexibility for further debt reductions or investment in projects that will positively impact the business and enhance shareholder returns. These steps will help maintain the health of our balance sheet and will provide the stable financial base needed to support our business.

We strongly believe the investments we are making in our current initiatives will strengthen our brands and allow us to improve our competitive position and deliver profitable growth over the long term for our shareholders. For example, we believe that the unique and delicious food and signature drinks; the new flavors and offerings we continue to create at each of our brands; and the warm, welcoming and revitalized atmospheres will drive positive sales growth and guest loyalty. Another top area of focus remains creating a culture of hospitality that will differentiate our brands from all others in the industry. We are investing in team member training at all levels that will empower our team to enhance the guest experience. We believe that superior customer service will provide a competitive advantage. We believe that recent management changes will promote innovation, enhance sharing of best practices and leverage our talent across our brands. With growing economic pressures in the United States and globally, international expansion allows further diversification of our portfolio, enabling us to build strength in a variety of markets and economic conditions. Our growth will be driven by cultivating relationships with franchisees and joint venture partners. Our growing percentage of franchise operations both domestically and internationally enable us to improve margins as royalty payments impact the bottom line.

The casual dining industry is a competitive business which is sensitive to changes in economic conditions, trends in lifestyles and fluctuating costs. Our priority remains increasing profit growth over time. We believe that this focus, combined with discipline around the use of capital and efficient management of operating expenses, will enable us to maintain our position as an industry leader. We remain confident in the financial health of our company, the long-term prospects of the industry as well as our ability to perform effectively in a competitive marketplace and a variety of economic environments.

REVENUES

Revenues for the second quarter of fiscal 2010 decreased to \$781.9 million, a 17.6% decrease from the \$949.4 million generated for the same quarter of fiscal 2009. Revenues for the twenty-six week period ended December 23, 2009 were \$1,559.9 million, a 19.3% decrease from the \$1,933.8 million generated for the same period in fiscal 2009. The decrease in revenue was primarily attributable to net declines in capacity at company-owned restaurants as well as a decrease in comparable restaurant sales across all brands as follows:

	Thirteen Week Period Ended December 23, 2009			Comparable Sales

(1) Macaroni Grill capacity and comparable restaurant sales for the quarter and year-to-date periods ended December 24, 2008 include the impact through the sale date of December 18, 2008.

Our capacity decreased 17.7% for the second quarter of fiscal 2010 (as measured by average-weighted sales weeks) compared to the same quarter of the prior year. The reduction in capacity was primarily due to the sale of 189 Macaroni Grill restaurants at the end of the second quarter of fiscal 2009. The decline in capacity was also due to 47 restaurant closures and the sale of 21 Chili's restaurants to a franchisee since the second quarter of fiscal 2009. Including the impact of Macaroni Grill and restaurant sales to franchisees, we experienced a net decrease of 254 company-owned restaurants since December 24, 2008.

Comparable restaurant sales for the second quarter of fiscal 2010 decreased 3.1% compared to the same quarter of the prior year. The decrease in comparable restaurant sales resulted from a decline in customer traffic for Chili's and On the Border and unfavorable product mix shifts across all brands, partially offset by an increase in menu prices at all brands.

[Table of Contents](#)

Royalty revenues from franchisees increased slightly to \$15.9 million in the second quarter of fiscal 2010 compared to \$15.8 million in the prior year. For the year-to-date period, royalty revenues from franchisees decreased 3.4% to \$31.3 million compared to \$32.4 million in fiscal 2009. The decrease is primarily due to the sale of Macaroni Grill, partially offset by the net addition of 69 franchised restaurants since December 24, 2008. Franchise and development fee revenues increased to approximately \$1.4 million and \$1.8 million for the second quarter and year-to-date periods as compared to \$1.3 million and \$1.7 million in the respective prior year periods primarily due to the sale of 21 restaurants to a franchisee in fiscal 2010.

COSTS AND EXPENSES

Cost of sales, as a percent of revenues, increased to 28.9% for the second quarter of fiscal 2010 from 28.2% in the prior year and to 28.5% for the year-to-date period from 28.3% in the prior year. Cost of sales was negatively impacted by promotions and unfavorable commodity prices primarily in poultry, produce, and dairy products, partially offset by favorable menu price changes and operational efficiencies.

Restaurant expenses, as a percent of revenues, decreased to 56.0% for the second quarter of fiscal 2010 from 58.0% in the prior year and to 57.3% for the year-to-date period from 58.4% in the prior year. The decrease was primarily driven by reduced labor, utility expenses and the receipt of a \$3.3 million credit card class action lawsuit settlement.

Depreciation and amortization decreased \$2.4 million for the second quarter of fiscal 2010 and \$4.7 million for the year-to-date period of fiscal 2010 compared to the same periods of the prior year primarily driven by an increase in fully depreciated assets and restaurant closures. These decreases were partially offset by an increase in depreciation due to asset replacements and investments in existing restaurants.

General and administrative expenses decreased \$6.0 million, or 15.3%, for the second quarter of fiscal 2010 and \$9.8 million, or 12.5%, for the year-to-date period of fiscal 2010 as compared to the same periods of fiscal 2009. The decreases were primarily due to reduced salary expense from lower headcount driven by organizational changes, the sale of Macaroni Grill and income related to transitional services provided to Macaroni Grill that offset the internal cost of providing the services.

Other gains and charges in fiscal 2010 included a \$15.2 million charge related to the impairment of long-lived assets held for use associated with 15 underperforming restaurants based on the excess of the carrying amount of the long-lived assets over the estimated fair value. Additionally, we incurred \$6.8 million in charges primarily related to long-lived asset impairments resulting from the decision to close 12 company-owned restaurants based on a comprehensive analysis that examined restaurants not performing at required levels of return. We also incurred \$1.2 million in severance and other benefits resulting from recent organizational changes. These charges were partially offset by gains of \$3.5 million related to the sale of 21 restaurants to a franchisee and land sales. In the first quarter of fiscal 2010, we recorded \$2.0 million in lease termination charges related to restaurants closed in prior years and a \$0.5 million charge for severance and other benefits resulting from organizational changes initiated in fiscal 2009.

Other gains and charges in fiscal 2009 included a \$45.7 million charge primarily related to long-lived asset impairments resulting from the decision to close 35 underperforming restaurants. In December 2008, we sold Macaroni Grill to Mac Acquisition and recorded a loss on the sale of \$43.3 million. We also recorded gains of \$3.6 million related to the sale of nine restaurants to a franchisee and land sales during the quarter. In the first quarter of fiscal 2009, we recorded \$2.0 million in lease termination charges, a \$1.7 million charge related to uninsured hurricane damage and a \$1.3 million charge for expenses associated with the sale of Macaroni Grill.

[Table of Contents](#)

Interest expense was \$6.8 million for the second quarter of fiscal 2010 and \$13.8 million for the year-to date period of fiscal 2010 compared to \$10.5 million for the second quarter and \$20.0 million for the year-to-date period of the prior year. The decrease in interest expense is primarily due to lower average borrowing balances on our credit facilities and lower interest rates on our debt carrying variable interest rates.

Other, net increased \$1.5 million and \$2.5 million for the second quarter and year-to-date periods of fiscal 2010 primarily due to lease income from Mac Acquisition as part of the sale agreement.

INCOME TAXES

The effective income tax rate increased to an expense of 19.6% and 22.7% for the second quarter and year-to-date periods of fiscal 2010 compared to a benefit of 51.1% and 116.6% for the second quarter and year-to-date periods of fiscal 2009. The change in the tax rate is primarily due to the loss on the sale of Macaroni Grill and charges for long-lived asset impairments in fiscal 2009.

LIQUIDITY AND CAPITAL RESOURCES

Our primary source of liquidity is cash flows generated from our restaurant operations. We expect our ability to generate solid cash flows from operations to continue into the future. Net cash provided by operating activities for the first two quarters of fiscal 2010 increased to approximately \$156.3 million compared to \$94.8 million in the prior year primarily due to the timing of income tax payments as well as operational payments and receipts, partially offset by a decline in operating profitability driven by the sale of Macaroni Grill, depressed market conditions and restaurant closures.

Capital expenditures consist of ongoing remodel investments, purchases of new and replacement restaurant furniture and equipment, investments in information technology infrastructure, and new restaurants under construction. Capital expenditures were \$25.0 million for the first two quarters of fiscal 2010 compared to \$59.6 million for the same period of fiscal 2009. The reduction in capital expenditures is primarily due to a decrease in company-owned restaurant development and remodel investments in the first two quarters of fiscal 2010 compared to the same period of prior year. We estimate that our capital expenditures during fiscal 2010 will be approximately \$85 million and will be funded entirely by cash from operations.

Excluding the impact of the reclassification of \$250.0 million in long-term debt to current in the second quarter of fiscal 2010, the working capital deficit increased to \$118.4 million at December 23, 2009 from \$39.7 million at June 24, 2009 primarily due to payments made on long-term debt and the timing of income tax payments, partially offset by an increase in accounts receivable due to third party gift card sales during the holiday season.

We paid dividends of \$11.3 million, or \$0.11 per share, to common stock shareholders in December 2009 and a total of \$23.2 million, or \$0.22 per share, to common stock shareholders year-to-date.

During the second quarter, we dissolved our wholly-owned captive insurance company which allowed us to access \$29.7 million of cash that was previously pledged as collateral and classified as restricted. We also sold 21 Chili's restaurants to a franchisee during the second quarter for \$19.0 million.

We have evaluated ways to monetize the value of our owned real estate and determined that the alternatives considered are more costly than other financing options currently available due to a combination of the income tax impact and higher effective borrowing rates.

[Table of Contents](#)

The Board of Directors has authorized a total of \$2,060.0 million in share repurchases, which has been and will be used to return capital to shareholders and to minimize the dilutive impact of stock options and other share-based awards. As of December 23, 2009, approximately \$60 million was available under our share repurchase authorizations. We did not repurchase any common shares under our share repurchase plan during the first two quarters of fiscal 2010. We may consider additional share repurchases under our plan based on several factors, including our cash position, share price, operational liquidity, and planned investment and financing needs.

During the second quarter, we repaid \$140.0 million on our three-year term loan agreement bringing the outstanding balance to \$250.0 million. The agreement expires in October 2010. As a result, the entire outstanding balance has been classified as current in our consolidated balance sheet as of December 23, 2009. However, we are evaluating potential options including long-term refinancing and repayment of the outstanding balance. The long-term refinancing options we are considering include, but are not limited to, the utilization of our existing revolving credit facility. As of December 23, 2009, we have \$250 million available under the revolving credit facility, which expires in February 2012. The current interest rate on the term loan is LIBOR plus 0.95% (1.18%) based on our current credit rating. In the event we refinance all or part of the remaining term loan balance at the maturity date, interest rates will be subject to current market conditions and will likely increase. The interest rate on the revolving credit facility is LIBOR plus 3.25%. We are in compliance with all financial debt covenants.

In fiscal 2010, Standard and Poor's ("S&P") reaffirmed our debt rating of BBB- (investment grade) with a stable outlook. Moody's also reaffirmed our corporate family rating of Ba1 (non-investment grade) and our senior unsecured note rating of Ba2 (non-investment grade) with a stable outlook. Our balance sheet is a primary focus as we have committed to reducing our leverage allowing us to retain the investment grade rating from S&P and ultimately regain our investment grade rating from Moody's. We have curtailed virtually all domestic company-owned new restaurant development in fiscal 2010 and kept dividends stable to ensure we maintain adequate cash flow to meet our current obligations.

We believe that our various sources of capital, including cash flow from operating activities and availability under our existing credit facility are adequate to finance operations as well as the repayment of current debt obligations. We are not aware of any other event or trend that would potentially affect our liquidity. In the event such a trend develops, we believe that there are sufficient funds available under our credit facility and from our internal cash generating capabilities to adequately manage our ongoing business.

RECENT ACCOUNTING PRONOUNCEMENTS

In December 2006, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Codification ("ASC") Subtopic 820-10, an amendment to ASC 820, "Fair Value Measurements and Disclosures," which clarifies the definition of fair value, describes methods used to appropriately measure fair value, and expands fair value disclosure requirements, but does not change existing guidance as to whether or not an instrument is carried at fair value. For financial assets and liabilities, ASC Subtopic 820-10 is effective for fiscal years beginning after November 15, 2007, which required that we adopt these provisions in fiscal 2009. For nonfinancial assets and liabilities, ASC Subtopic 820-10 is effective for fiscal years beginning after November 15, 2008, which required that we adopt these provisions in the first quarter of fiscal 2010. The adoption of ASC Subtopic 820-10 did not have a material impact on our financial statements.

In December 2007, the FASB issued ASC Topic 805, "Business Combinations." All business combinations will be accounted for by applying the acquisition method. ASC Topic 805 requires most identifiable assets, liabilities, noncontrolling interests, and goodwill acquired in a business combination to be recorded at full fair value. ASC Topic 805 is effective for annual reporting periods beginning on or after December 15, 2008, which required that we adopt these provisions beginning in the first quarter of fiscal 2010 for business combinations occurring on or after the effective date.

[Table of Contents](#)

In June 2008, the FASB issued ASC Subtopic 260-10, an amendment to ASC 260, “Earnings Per Share,” which provides that unvested share-based payment awards that contain nonforfeitable rights to dividends that are paid or unpaid are participating securities and shall be included in the computation of earnings per share based on the two-class method. The two-class method is an earnings allocation method for computing earnings per share when an entity’s capital structure includes either two or more classes of common stock or common stock and participating securities. ASC Subtopic 260-10 is effective for fiscal years beginning after December 15, 2008, which required us to adopt these provisions in the first quarter of fiscal 2010. The adoption of ASC Subtopic 260-10 did not have a material impact on our financial statements.

In June 2009, the FASB issued ASC Topic 105, “Generally Accepted Accounting Principles (“GAAP”),” which establishes the FASB ASC as the single official source of authoritative, nongovernmental U.S. GAAP. The ASC did not change GAAP but reorganizes the literature. ASC Topic 105 is effective for interim and annual periods ending after September 15, 2009, which required us to adopt these provisions in the first quarter of fiscal 2010.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no material changes in our quantitative and qualitative market risks since the prior reporting period.

Item 4. CONTROLS AND PROCEDURES

Based on their evaluation of our disclosure controls and procedures (as defined in Rules 13a-15 and 15d-15 under the Securities Exchange Act of 1934 [the “Exchange Act”]), as of the end of the period covered by this report, our principal executive officer and principal financial officer have concluded that our disclosure controls and procedures are effective.

There were no changes in our internal control over financial reporting during our second quarter ended December 23, 2009, that have materially affected or are reasonably likely to materially affect, our internal control over financial reporting.

FORWARD-LOOKING STATEMENTS

We wish to caution you that our business and operations are subject to a number of risks and uncertainties. We have identified certain factors in Part I, Item 1A “Risk Factors” in our Annual Report on Form 10-K for the year ended June 24, 2009 and below in Part II, Item 1A “Risk Factors” in this report on Form 10-Q, that could cause actual results to differ materially from our historical results and from those projected in forward-looking statements contained in this report, in our other filings with the SEC, in our news releases, written or electronic communications, and verbal statements by our representatives. We further caution that it is not possible to see all such factors, and you should not consider the identified factors as a complete list of all risks and uncertainties.

You should be aware that forward-looking statements involve risks and uncertainties. These risks and uncertainties may cause our or our industry’s actual results, performance or achievements to be materially different from any future results, performances or achievements contained in or implied by these forward-looking statements. Forward-looking statements are generally accompanied by words like “believes,” “anticipates,” “estimates,” “predicts,” “expects,” and other similar expressions that convey uncertainty about future events or outcomes.

[Table of Contents](#)

The risks related to our business include:

- The effect of competition on our operations and financial results.
- The impact of the global economic crisis on our business and financial results in fiscal 2010 and the material affect of a prolonged recession on our future results.
- The impact of the current economic crisis on our landlords or other tenants in retail centers in which we or our franchisees are located, which in turn could negatively affect our financial results.
- The risk inflation may increase our operating expenses.
- The effect of potential changes in governmental regulation on our ability to maintain our existing and future operations and to open new restaurants.
- Increases in energy costs and the impact on our profitability.
- Increased costs or reduced revenues from shortages or interruptions in the availability and delivery of food and other supplies.
- Our ability to consummate successful mergers, acquisitions, divestitures and other strategic transactions that are important to our future growth and profitability.
- The inability to meet our growth plan and the impact on our profitability in the future.
- The importance of the success of our franchisees to our future growth.
- The general decrease in sales volumes during winter months.
- Unfavorable publicity relating to one or more of our restaurants in a particular brand tainting public perception of the brand.
- Dependence on information technology and any material failure of that technology impairing our ability to efficiently operate our business.
- Outsourcing of certain business processes to third-party vendors that subject us to risk, including disruptions in business and increased costs.
- The impact of disruptions in the financial markets on the availability and cost of credit and consumer spending patterns.
- Declines in the market price of our common stock or changes in other circumstances that may indicate an impairment of goodwill possibly adversely affecting our financial position and results of operations.
- Changes to estimates related to our property and equipment, or operating results that are lower than our current estimates at certain restaurant locations, possibly causing us to incur impairment charges on certain long-lived assets.
- Failure to protect the integrity and security of individually identifiable data of our guests and teammates possibly exposing us to litigation and damage our reputation.

[Table of Contents](#)

- Identification of material weakness in internal control may adversely affect our financial results.
- Other risk factors may adversely affect our financial performance, including, pricing, consumer spending and consumer confidence, changes in economic conditions and financial and credit markets, credit availability, increased costs of food commodities, increased fuel costs and availability for our team members, customers and suppliers, health epidemics or pandemics or the prospects of these events, consumer perceptions of food safety, changes in consumer tastes and behaviors, governmental monetary policies, changes in demographic trends, availability of employees, terrorist acts, energy shortages and rolling blackouts, and weather and other acts of God.

PART II. OTHER INFORMATION

Item 1. LEGAL PROCEEDINGS

Information regarding legal proceedings is incorporated by reference from Note 9 to our consolidated financial statements set forth in Part I of this report.

Item 1A. RISK FACTORS

There has been no material change in the risk factors set forth in Part I, Item 1A, "Risk Factors" in our Annual Report on Form 10-K for the year ended June 24, 2009.

The above risks and other risks described in this report and our other filings with the SEC could have a material impact on our business, financial condition or results of operations. It is not possible to predict or identify all risk factors. Additional risks and uncertainties not presently known to us or that we currently believe to be immaterial may also impair our operations. Therefore, the risks identified are not intended to be a complete discussion of all potential risks or uncertainties.

Item 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Shares repurchased during the second quarter of fiscal 2010 are as follows (in thousands, except share and per share amounts):

CERTIFICATIONS

I, Douglas H. Brooks, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Brinker International, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - A. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - B. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally acceptable accounting principles;
 - C. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - D. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions);

- A. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
- B. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
