BRINKER INTERNATIONAL, INC.  
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
(Unaudited)

1. Basis of Presentation

The condensed consolidated financial statements of Brinker International, Inc. ("Company") as of March 29, 1995 and June 29, 1994 and for the thirteen week periods and thirty-nine week periods ended March 29, 1995 and March 30, 1994 have been prepared by the Company, pursuant to the rules and regulations of the Securities and Exchange Commission. The Company owns and operates five primary restaurant concepts under the names of Chili's Grill & Bar ("Chili's"), Grady's American Grill ("Grady's"), Romano's Macaroni Grill ("Macaroni Grill"), Spageddies Italian Kitchen ("Spageddies"), and On The Border Cafes ("On The Border").

The information furnished herein reflects all adjustments (consisting of normal recurring accruals and adjustments) which are, in the opinion of management, necessary to fairly state the operating results for the respective periods. Certain information and footnote disclosures normally included in annual financial statements prepared in accordance with generally accepted accounting principles have been omitted pursuant to such rules and regulations. The notes to the condensed consolidated financial statements should be read in conjunction with the notes to the consolidated financial statements contained in the June 29, 1994 Form 10K. Company management believes that the disclosures are sufficient for interim financial reporting purposes.

2. Net Income Per Share

Both primary and fully diluted net income per share are based on the weighted average number of shares outstanding during the period increased by common equivalent shares (stock options) determined using the treasury stock method.

3. Business Combination

Effective August 3, 1994, the Company acquired four Chili's restaurants located in Florida and Georgia from a franchisee in exchange for 505,930 shares of Company common stock. The acquisition of one of the restaurants was accounted for as a purchase. The acquisition of the remaining three restaurants was accounted for as a pooling of interests. Accordingly, the Company's consolidated financial statements have been restated to include the accounts and operations of these three restaurants for all periods presented. The four acquired restaurants' results of operations on a pro forma basis are not presented separately as such results are not material.

4. Shareholders' Equity

On November 3, 1994, the shareholders of the Company approved an amendment to the Company's Certificate of Incorporation which increased the number of authorized shares of common stock from 100,000,000 to 250,000,000.

5. Subsequent Event

On April 12, 1995, the Company raised \$100,000,000 through the issuance of senior notes bearing interest at an annual rate of 7.8%. Interest is payable semi-annually and the Company is required to prepay 14.3% of the original principal balance annually on April 12th beginning in 1999 through 2004 with the remaining unpaid balance due on April 12, 2005. These proceeds will be utilized to fund future expansion of the restaurant concepts.

Management's Discussion and Analysis of  
Financial Condition and Results of Operations  
For The Thirteen Week Periods and Thirty-Nine Week Periods Ended  
March 29, 1995 and March 30, 1994

The following table sets forth expenses as a percentage of total revenues for revenue and expense items included in the Condensed Consolidated Statements of Income.

	13 Week Periods Ended		39 Week Periods Ended	
	Mar. 29, 1995	Mar. 30, 1994	Mar. 29, 1995	Mar. 30, 1994
Revenues	100.0%	100.0%	100.0%	100.0%
Costs and Expenses:

## REVENUES

Revenues for the third quarter of fiscal 1995 increased to \$268.5 million, 18.6% over the \$226.4 million generated for the same quarter of fiscal 1994. Revenues for the thirty-nine week period ended March 29, 1995 rose 17.7% to \$762.2 million from \$647.8 million generated from the same period of fiscal 1994. The increase is primarily attributable to the 71 Company-operated restaurants opened or acquired since March 30, 1994. Reported comparable store sales for third quarter and year-to-date of fiscal 1995 changed (0.6%) and (0.1%), respectively, compared to the respective prior year periods. On a concept basis, Chili's, Macaroni Grill, and Grady's experienced comparable store sales changes of (0.8%), 1.8%, and (1.2%), respectively, for the third quarter of fiscal 1995, and (0.2%), 2.0%, and (1.2%), respectively, on a year-to-date basis.

## COSTS AND EXPENSES (as a percent of Revenues)

Cost of sales decreased for both the third quarter and year-to-date of fiscal 1995. Due to increased purchasing leverage, favorable commodity prices were experienced in meat, poultry, and dairy on both a third quarter and year-to-date basis. These positive variances were somewhat offset by unfavorable prices for lettuce in the latter part of the third quarter due to weather conditions in California and unfavorable prices for beverages, both alcoholic and non-alcoholic, and seafood on both a third quarter and year-to-date basis.

Restaurant expenses increased on both a comparative third quarter and year-to-date basis, primarily resulting from increases in labor, both management and hourly, restaurant supplies, and advertising costs. The increase in management labor is due to staffing and training costs associated with future expansion. At the restaurant level, hourly wages are up due to increased overtime and training costs resulting from higher turnover, and restaurant supplies are up primarily as a result of new menu items. Advertising has increased due to increased television time and local marketing efforts. These cost increases were partially offset by decreases in fixed costs as a result of the expanding sales base.

Depreciation and amortization decreased for both the third quarter and year-to-date of fiscal 1995. A decrease in per-unit depreciation and amortization due to a declining depreciable asset base for older units and higher average sales volumes in newer restaurants offset increases related to rising construction costs, remodel costs, and capital expenditures at the corporate level, such as investments in new computer hardware and software.

General and administrative expenses declined in the third quarter and year-to-date of fiscal 1995 compared to the respective fiscal 1994 periods due to the Company's ongoing focus on controlling corporate overhead and efficiencies realized from increased investments in computer hardware and software. The dollar increase in general and administrative expenses is due to additional staff and support as the Company accelerates expansion of its restaurant concepts, including international franchising.

Merger expenses and lawsuit settlement recognized in fiscal 1994 are nonrecurring costs associated with On The Border. Merger expenses are consulting and legal fees incurred in the initial phases of negotiating On The Border's acquisition. Lawsuit settlement is an injury claim settlement arising from an airplane accident in March 1993 involving several former On The Border officers.

Other, net, decreased compared to the third quarter and year-to-date of fiscal 1994. The decrease is primarily the result of a gain of approximately \$1 million generated from the sale of land in the second quarter of fiscal 1994, a decrease in net realized gains on sales of marketable securities due to significant gains recognized in the first quarter of fiscal 1994, and a decrease in interest and dividend income compared to fiscal 1994 as a result of a decrease in the investment portfolio balance.

#### INCOME BEFORE PROVISION FOR INCOME TAXES

As a result of the relationships between revenues and costs and expenses, income before provision for income taxes increased 10.5% and 18.7%, respectively, over the third quarter and year-to-date results of fiscal 1994.

#### INCOME TAXES

The Company's effective income tax rate was 34.2% and 34.9% for the third quarter and year-to-date of fiscal 1995, respectively, compared to 35.7% and 35.3% for the same periods of fiscal 1994. The fiscal 1995 effective income tax rate has decreased as a result of lower state income tax liabilities and an increase in Federal FICA tax credits.

#### NET INCOME AND NET INCOME PER SHARE

Net income and primary net income per share rose 13.0% and 19.0%, respectively, compared to the third quarter of fiscal 1994. Year-to-date net income and primary net income per share increased 19.5% and 20.3%, respectively, compared to fiscal 1994. In the third quarter, the increase in net income was less than the increase in revenues due to a rise in labor and advertising costs which did not generate sufficient additional revenues. The year-to-date increase, however, exceeded the increase in revenues as the Company, overall, continues to control costs and expenses while maintaining the expansion of its restaurant concepts. Primary weighted average shares outstanding for the third quarter and year-to-date decreased 1.4% and 0.7%, respectively, compared to the respective prior year periods. Although the number of outstanding shares has increased as a result of common stock options exercised, dilutive common stock equivalents were down in fiscal 1995 as a result of a decline in the Company's stock price.

#### IMPACT OF INFLATION

The Company has not experienced a significant overall impact from inflation. As operating expenses increase, the Company, to the extent permitted by market conditions, recovers increased costs by raising menu prices.

## LIQUIDITY AND CAPITAL RESOURCES

The working capital deficit increased from \$54.9 million at June 29, 1994 to \$78.1 million at March 29, 1995, due primarily to the Company's capital expenditures as discussed below. Net cash provided by operating activities decreased to \$78.0 million for the nine months ended March 29, 1995 from \$87.3 million during the same period in fiscal 1994 due to timing of operational receipts and payments, which offset cash generated from the increased number of restaurants in operation, strong operating results from existing units, and the effective containment of costs.

Long-term debt outstanding at March 29, 1995 consisted of obligations under capital leases. At March 29, 1995, the Company had drawn \$30.7 million from its lines of credit to fund short-term operational needs, leaving \$19.3 million in available funds from lines of credit.

Capital expenditures were \$126.7 million for the nine months ended March 29, 1995 as compared to \$96.2 million last fiscal year. Purchases of land for future restaurant sites, new restaurants under construction, purchases of new and replacement restaurant furniture and equipment, and the ongoing remodeling program were responsible for the increased expenditures. The Company estimates that its capital expenditures during the fourth quarter will approximate \$46 million. These capital expenditures will be funded from internal operations, income earned from existing investments, build-to-suit lease agreements with landlords, and proceeds generated from the \$100 million debt transaction which closed on April 12, 1995.

The Clinton administration is likely to continue to analyze and propose new legislation which could adversely impact the entire business community. Mandated health care and minimum wage measures, if passed, could increase the Company's operating costs. The Company would attempt to offset increased costs through additional improvements in operating efficiencies and menu price increases.

The Company is not aware of any other event or trend which would potentially affect its liquidity. In the event such a trend would develop, the Company believes that there are sufficient funds available to it under the lines of credit and strong internal cash generating capabilities to adequately manage the expansion of business.
