BRINKER INTERNATIONAL REPORTS THIRD QUARTER OF FISCAL 2024 RESULTS; AND UPDATES FISCAL 2024 GUIDANCE

DALLAS (April 30, 2024) – Brinker International, Inc. (NYSE: EAT) today reported financial results for the third quarter ended March 27, 2024.

Third Quarter Fiscal 2024 Financial Highlights

Company sales were \$1,108.9 million in the third quarter of fiscal 2024 compared to \$1,072.9 million in the third quarter of fiscal 2023. Comparable restaurant sales increased 3.3%, with an increase in comparable restaurant sales of 3.5% for Chili's and 1.7% for Maggiano's. The comparable restaurant sales increase at Chili's was primarily due to increased menu pricing and favorable dine-in traffic. The overall traffic decline of 1.8% includes a negative impact of approximately 2.5% from our strategic decision to de-emphasize virtual brands. Higher Company sales resulted in operating income margin increasing to 6.2% and restaurant operating margin (non-GAAP) increasing to 14.2% for the third quarter.

Net income and diluted net income per share were \$48.7 million and \$1.08, respectively, in the third quarter of fiscal 2024. Diluted net income per share, excluding special items (non-GAAP), was \$1.24 in the third quarter of fiscal 2024, compared to \$1.23 in the third quarter of fiscal 2023.

“Our strong third quarter results were driven by the continued progress on guest experience, team member experience, and traffic driving initiatives,” said Kevin Hochman, Chief Executive Officer and President of Brinker International. “Those initiatives are allowing us to significantly outperform the industry on sales and traffic as well as continue to improve our restaurant four wall economics.”

Updates to Full Year Fiscal 2024 Guidance

We are providing the following updates to our full year fiscal 2024 guidance:

- Net income per diluted share, excluding special items, non-GAAP, is expected to be in the range of \$3.80 - \$4.00;
- Total revenues are expected to be in the range of \$4.33 billion - \$4.35 billion; and
- Capital expenditures are expected to be in the range of \$185 million - \$195 million.

We are reiterating the following full year fiscal 2024 guidance:

- Weighted average shares are expected to be in the range of 45 million - 46 million.

The potential for changes in macroeconomic conditions, among other risks, could cause actual results to differ materially from those projected. We are unable to reliably forecast special items without unreasonable effort. As such, we do not present a reconciliation of forecasted non-GAAP measures to the corresponding GAAP measures.

⁽¹⁾ Company restaurant expenses includes Food and beverage costs, Restaurant labor and Restaurant expenses, and excludes Depreciation and amortization, General and administrative and Other (gains) and charges.

⁽²⁾ See Non-GAAP Information and Reconciliations section below for more details.

Chili's

- Chili's Company sales increased primarily due to favorable comparable restaurant sales driven by increased menu pricing, partially offset by lower traffic driven by our strategic decision to de-emphasize our virtual brands and unfavorable menu item mix.
- Chili's Company restaurant expenses, as a percentage of Company sales, decreased primarily due to sales leverage, menu pricing, and lower delivery fees & to-go supplies, partially offset by increased advertising, hourly labor, and other restaurant expenses.
- Chili's franchisees generated sales of \$216.2 million for the third quarter of fiscal 2024 compared to \$213.6 million for the third quarter of fiscal 2023.

Maggiano's

- Maggiano's Company sales increased primarily due to favorable comparable restaurant sales driven by increased menu pricing and favorable menu item mix, partially offset by lower traffic.
- Maggiano's Company restaurant expenses, as a percentage of Company sales, decreased slightly, primarily due to menu pricing, partially offset by increased repairs and maintenance and other restaurant expenses.

Corporate

- General and administrative expenses increased \$5.5 million in the third quarter of fiscal 2024 compared to the third quarter of fiscal 2023, as stronger expected operating performance drove higher incentive compensation.
- On a GAAP basis, the effective income tax rate was 9.6% in the third quarter of fiscal 2024. The effective income tax rate is lower than the statutory rate of 21% due primarily to leverage of the FICA tip credit. Excluding the impact of special items, the effective income tax rate was an expense of 12.4% in the third quarter of fiscal 2024.

Restaurant operating margin as a % of Company sales, non-GAAP	14.1 %	13.2 %	15.0 %	14.9 %	14.2 %	13.4 %

Restaurant operating margin is not a measurement determined in accordance with GAAP and should not be considered in isolation, or as an alternative to operating income as an indicator of financial performance. Restaurant operating margin is widely regarded in the restaurant industry as a useful metric by which to evaluate restaurant-level operating efficiency and performance of ongoing restaurant-level operations. This non-GAAP measure is not indicative of overall Company performance and profitability because this measure does not directly accrue benefit to the shareholders due to the nature of costs excluded.

We define Restaurant operating margin as Company sales less Food and beverage costs, Restaurant labor and Restaurant expenses. We believe this metric provides a more useful comparison between periods and enables investors to focus on the performance of restaurant-level operations by excluding revenues not related to food and beverage sales at Company-owned restaurants, corporate General and administrative expenses, Depreciation and amortization, and Other (gains) and charges. Restaurant operating margin as presented may not be comparable to other similarly titled measures of other companies in our industry.

Reconciliation of Adjusted EBITDA (in millions)

Adjusted EBITDA is not a measurement determined in accordance with GAAP and should not be considered in isolation, or as an alternative to net income as an indicator of financial performance. Brinker believes presenting Adjusted EBITDA provides a useful measure of our operating performance, excluding the impacts of financing costs, capital expenditures and special items. We define Adjusted EBITDA as Net income before Provision (benefit) for income taxes, Other income, net, Interest expenses, Depreciation and amortization and Other (gains) and charges.
